

# TAP A NEW ENERGY CLASS

# VENEZIA PANORAMA

## Multidecks

Ultra-panoramic version of the traditional multideck made by Pastorfrigor. In addition to its proven reliability, now the display area has been increased through the optimization of inner airflow channels and the design of full-height doors, double glazing without frame, and minimal perimeter screen printing. Special attention has been paid to the choice of LEDs, state of the art components with particular brightness characteristics.
