VENEZIA OVERVIEW DOORS

Multidecks

The traditional wall multideck Venezia continues to be modern and in step with the times. Like all Pastorfrigor products, it is frequently subjected to studies to improve its efficiency and sustainability. To the recognized reliability of this product, we have added a solution to increase the display surface obtained by optimizing the internal air flow channels and the creation of full-height doors, frameless double glazing and slightly silk-screened perimeter. The LEDs, modernization and brightness features were carefully chosen. Available with certified components for the use of A2L and Co2 refrigerants.
