PERFORMANCE IN MOTION™

GROUP

ESKIMO VC

Counters

Part of our plug-in range of serve-over counters, ESKIMO is available with both straight and curved glass. ESKIMO VC is the version with CURVED glass . It allows retailers to create a display solution that fits seamlessly into different store concepts and layouts. Its modular design offers six different joinable lengths, together with internal and external corner sections, making it possible to build continuous and customized refrigerated counters according to the space available.
