## Counters

Panoramicity keeps on being the leitmotif for PASTORFRIGOR: this new ADMIRAL line of serve over counters proves it. The possibility of a large display volume and the internal stainless steel finishes make the ADMIRAL the meat counter par excellence. Like the other showcases with straight glass superstructure, PASTORFRIGOR presents a new style for the canopy of the internal lighting with very small dimensions that allows the full presentation of the product on display and at the same time gives the chance to light and color to the showcase. The new ADMIRAL is available with ventilated refrigeration , double static and also for use with CO2 refrigerant.
