PERFORMANCE IN MOTION™

# EXCELSIOR TOWER

## Counters

The continuous search for technological innovation and new aesthetic lines has led Pastorfrigor to create the EXCELSIOR line. It is a new line of traditional remote service counters for the best display of fresh and pre-packed meat, with a large display volume and internal finishes in stainless steel. The new design lines and elegant shapes catch the eye, both in the display area and externally on the peculiar sidewalls and the decoration. Also for this line of showcases, the 180 cm high TOWER display unit is available, made up of 2 glass shelves plus a bottom shelf and with rear hinged doors which can be canalised with all the other modules.
