PERFORMANCE IN MOTION™

EXCELSIOR SPIN

Counters

The continuous search for technological innovation and new aesthetic lines has led Pastorfrigor to create the EXCELSIOR line. It is a new line of traditional remote service counters for the best display of fresh and pre-packed meat, with a large display volume and internal finishes in stainless steel. This is the SPIN model with spinning display area. The new design lines and elegant shapes catch the eye, both in the display area and externally on the peculiar sidewalls and the decoration.
