

TAP A NEW ENERGY CLASS

EXCELLENCE

Counters

The EXCELLENCE refrigerated display counter is new in the range of plug-in serveovers with straight glass. New style and important lines for this showcase available in 6 different modular and ductable lengths, external and internal corners and for this model as well we have the showcase in TOWER configuration for displaying meat and cured meat in small stores but also in supermarkets. Note the new details of the glass structure: pliers to hold the glass and new generation points of lighting, unique as always in Pastorfrigor style. The sidewall and the front decoration are elegant and bring back to the tradition of service display cases with elegance and attention to detail.
